Branding

Logo

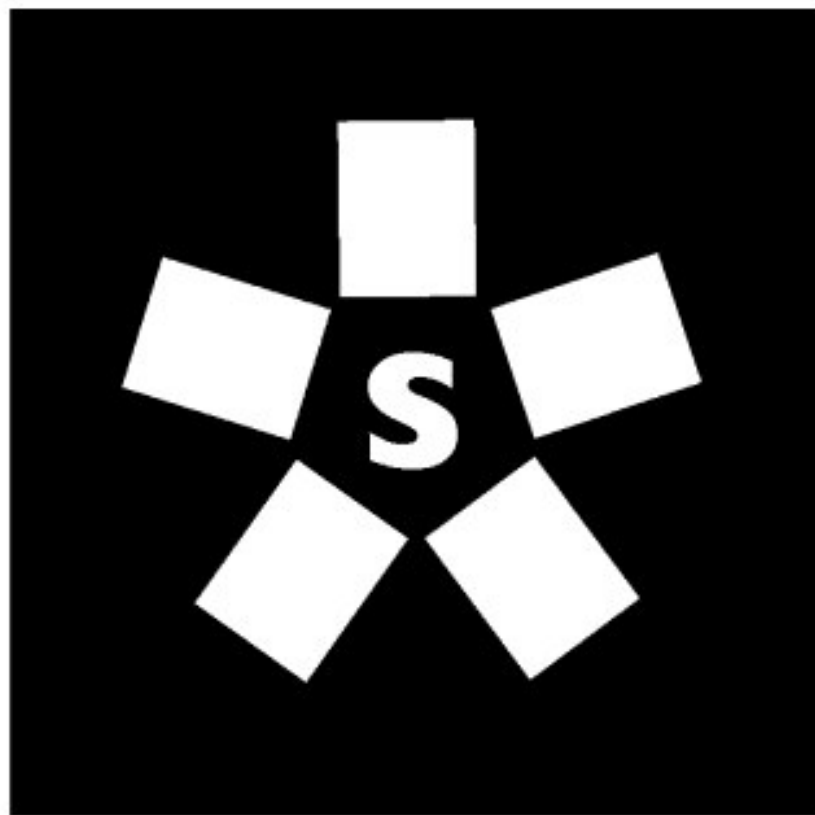

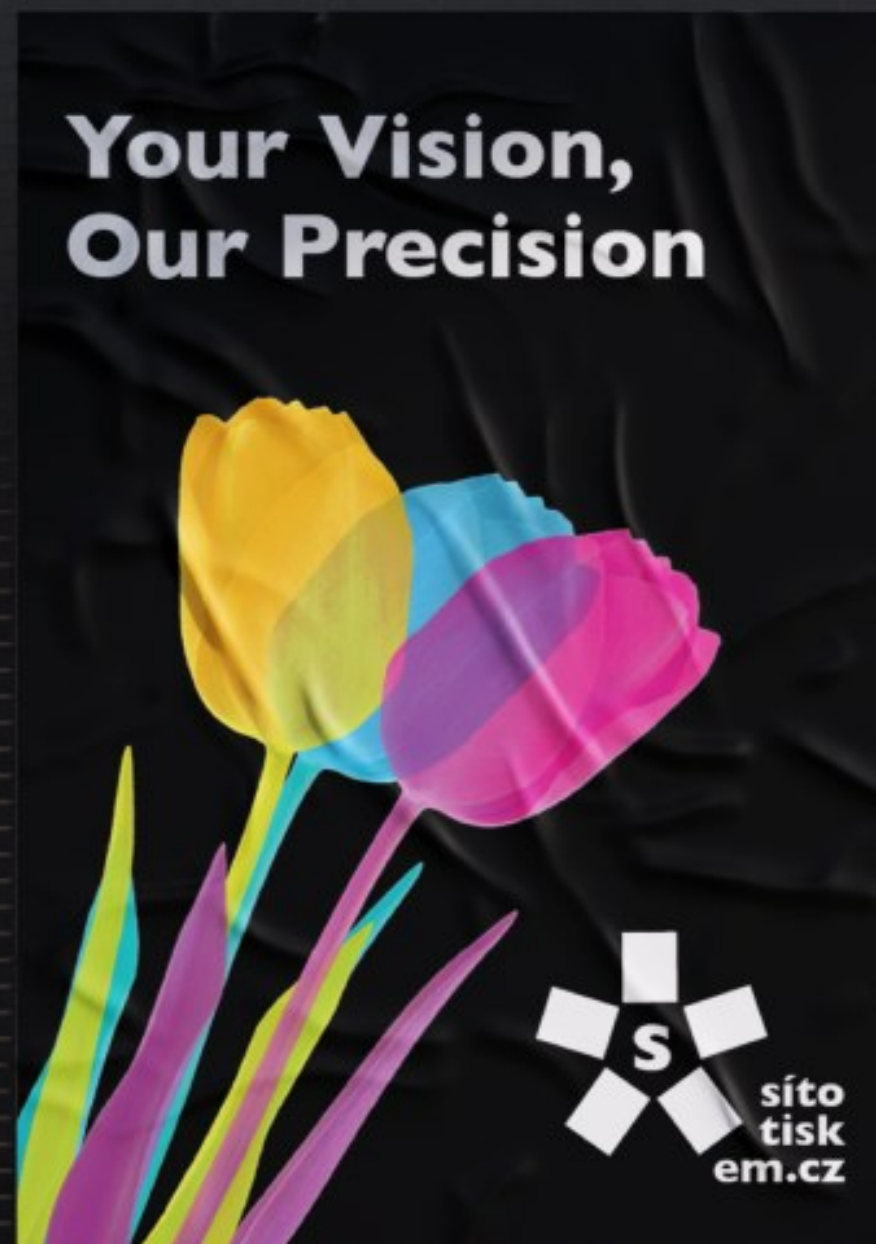

It also resembles the shape of a flower which indicates colours, shapes and variety.

The logo is inspired by a screen printing carousel, which is recognisable for people familiar with the field.

The S stands for Sítotiskem.

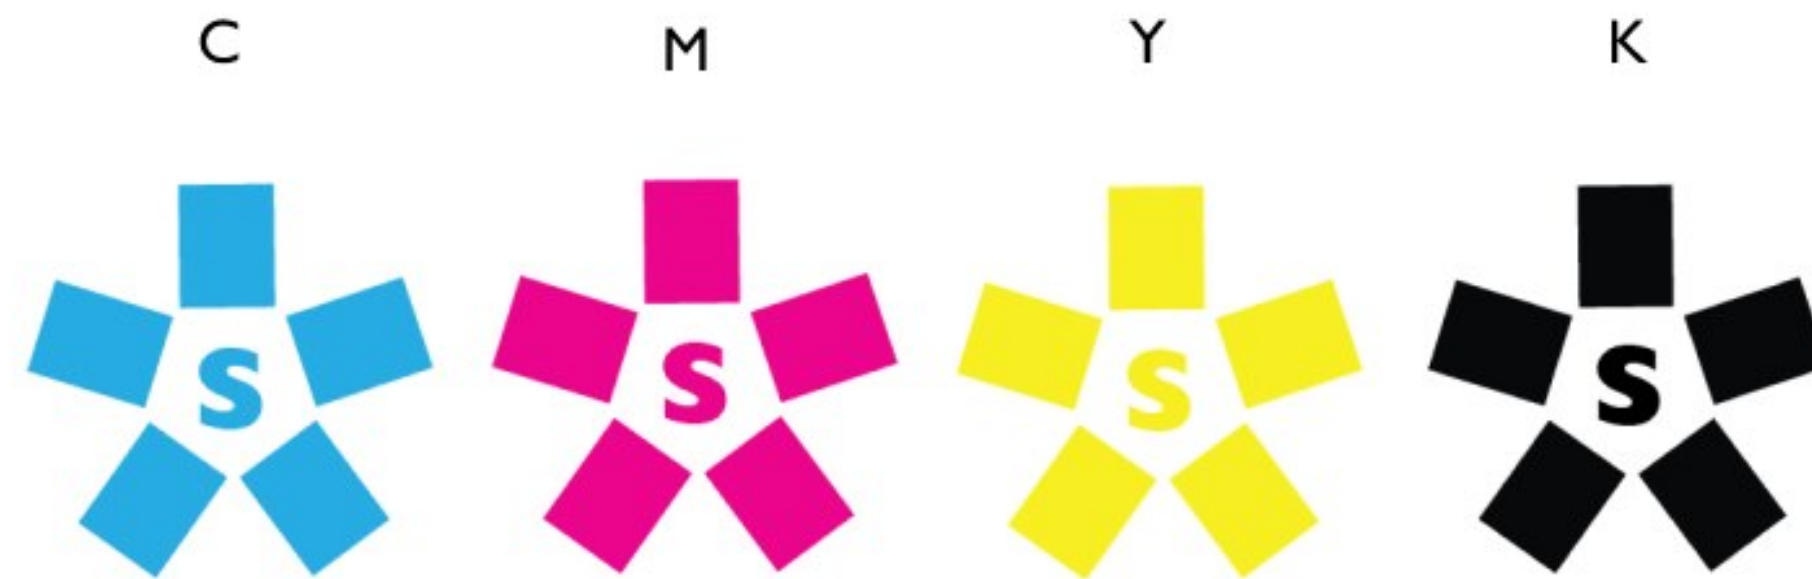

Visual style

Using flowers as a main element in imagery hinting the flower meaning in the logo, while overlaying images to mimic the results of screen printing.

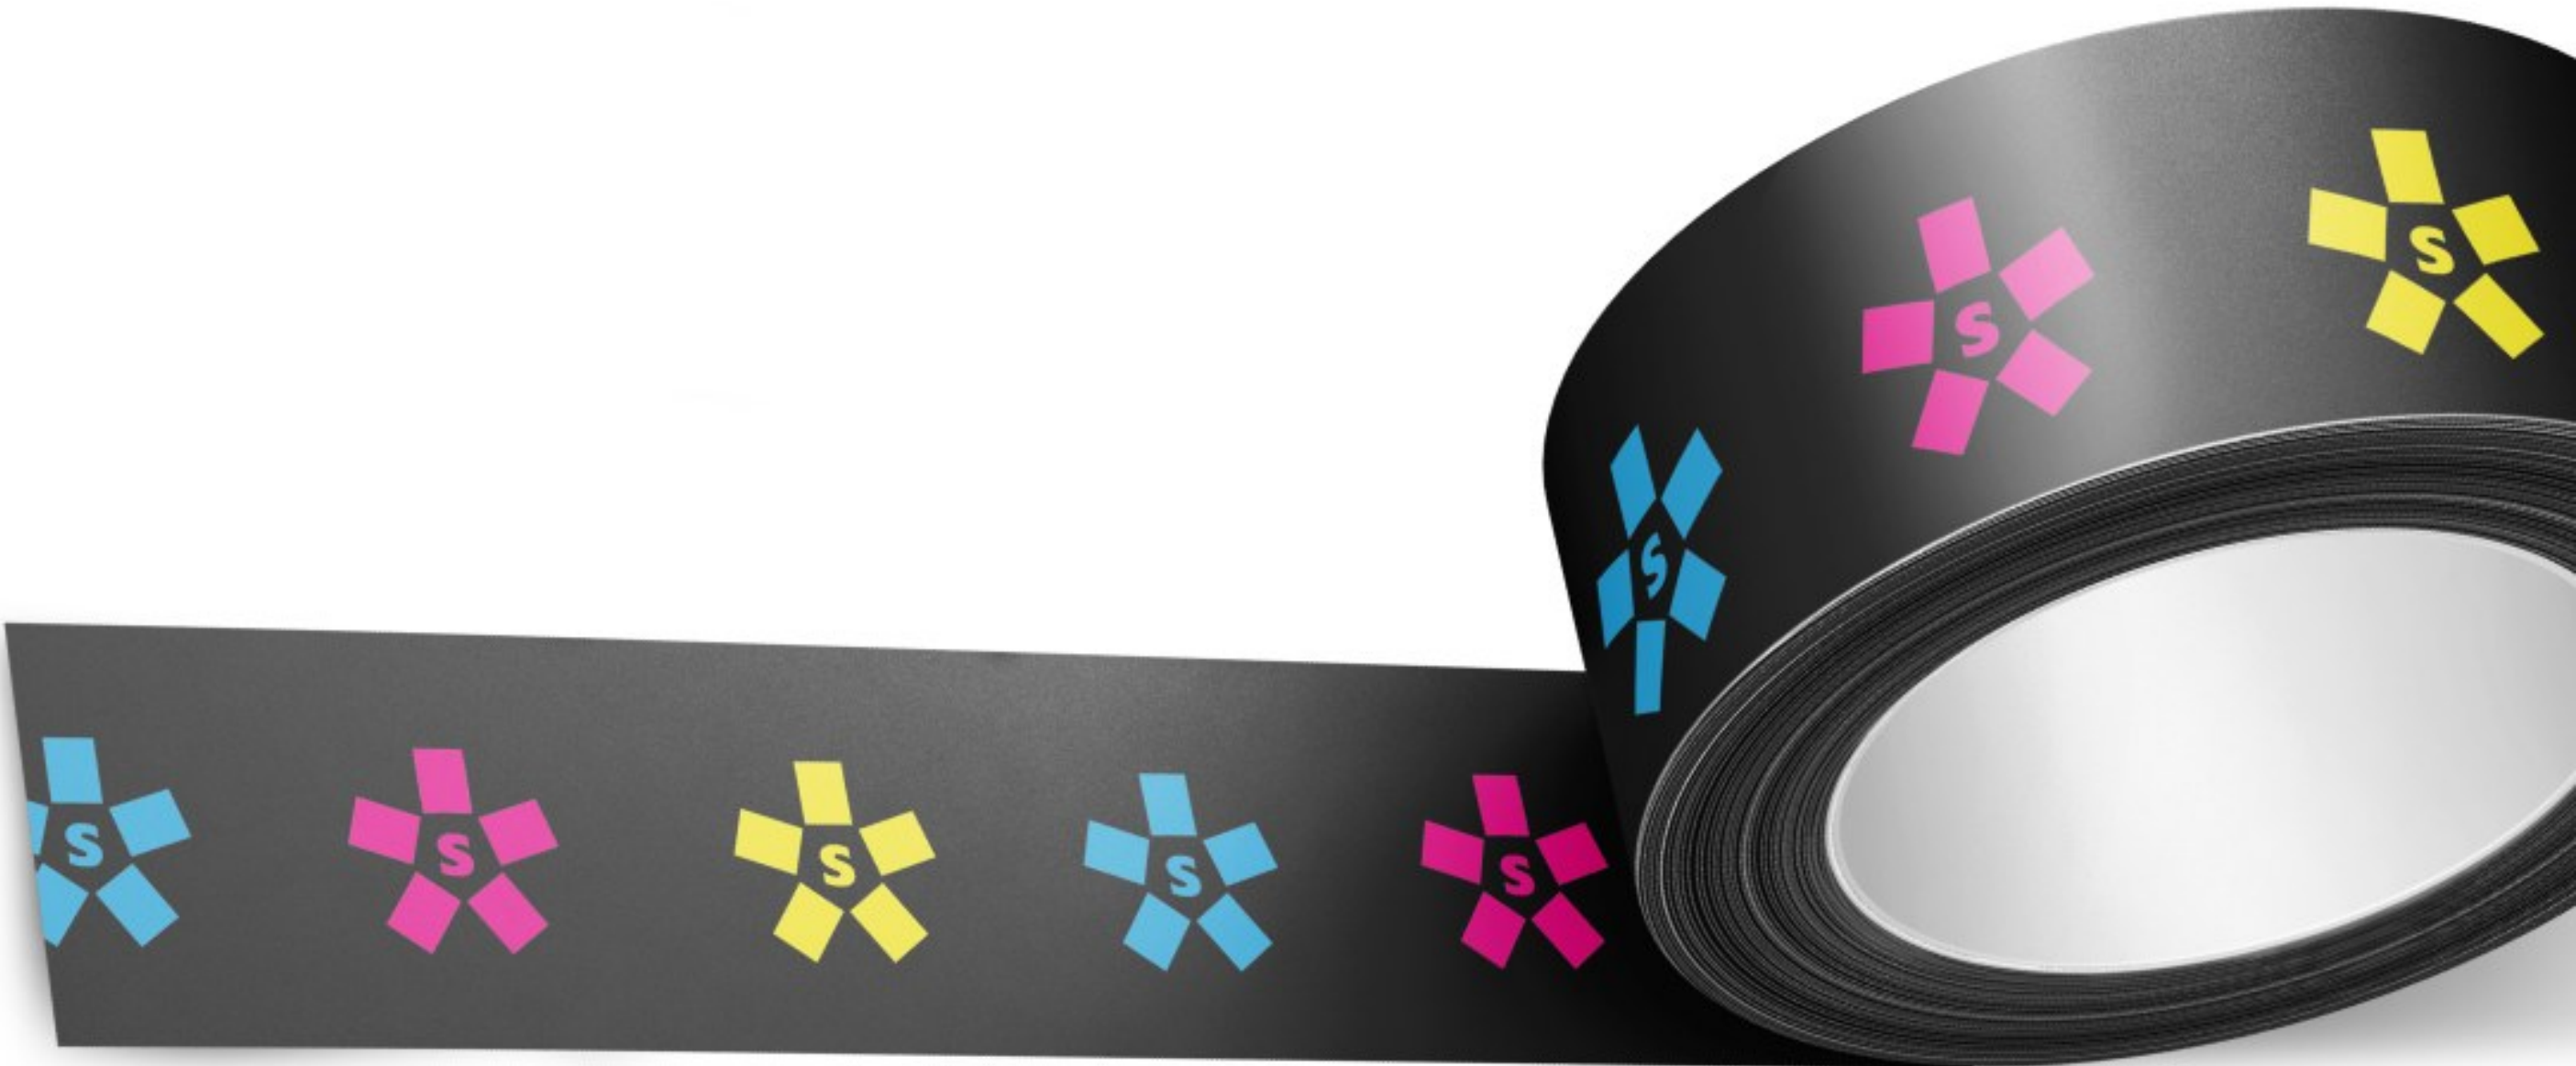

Colours

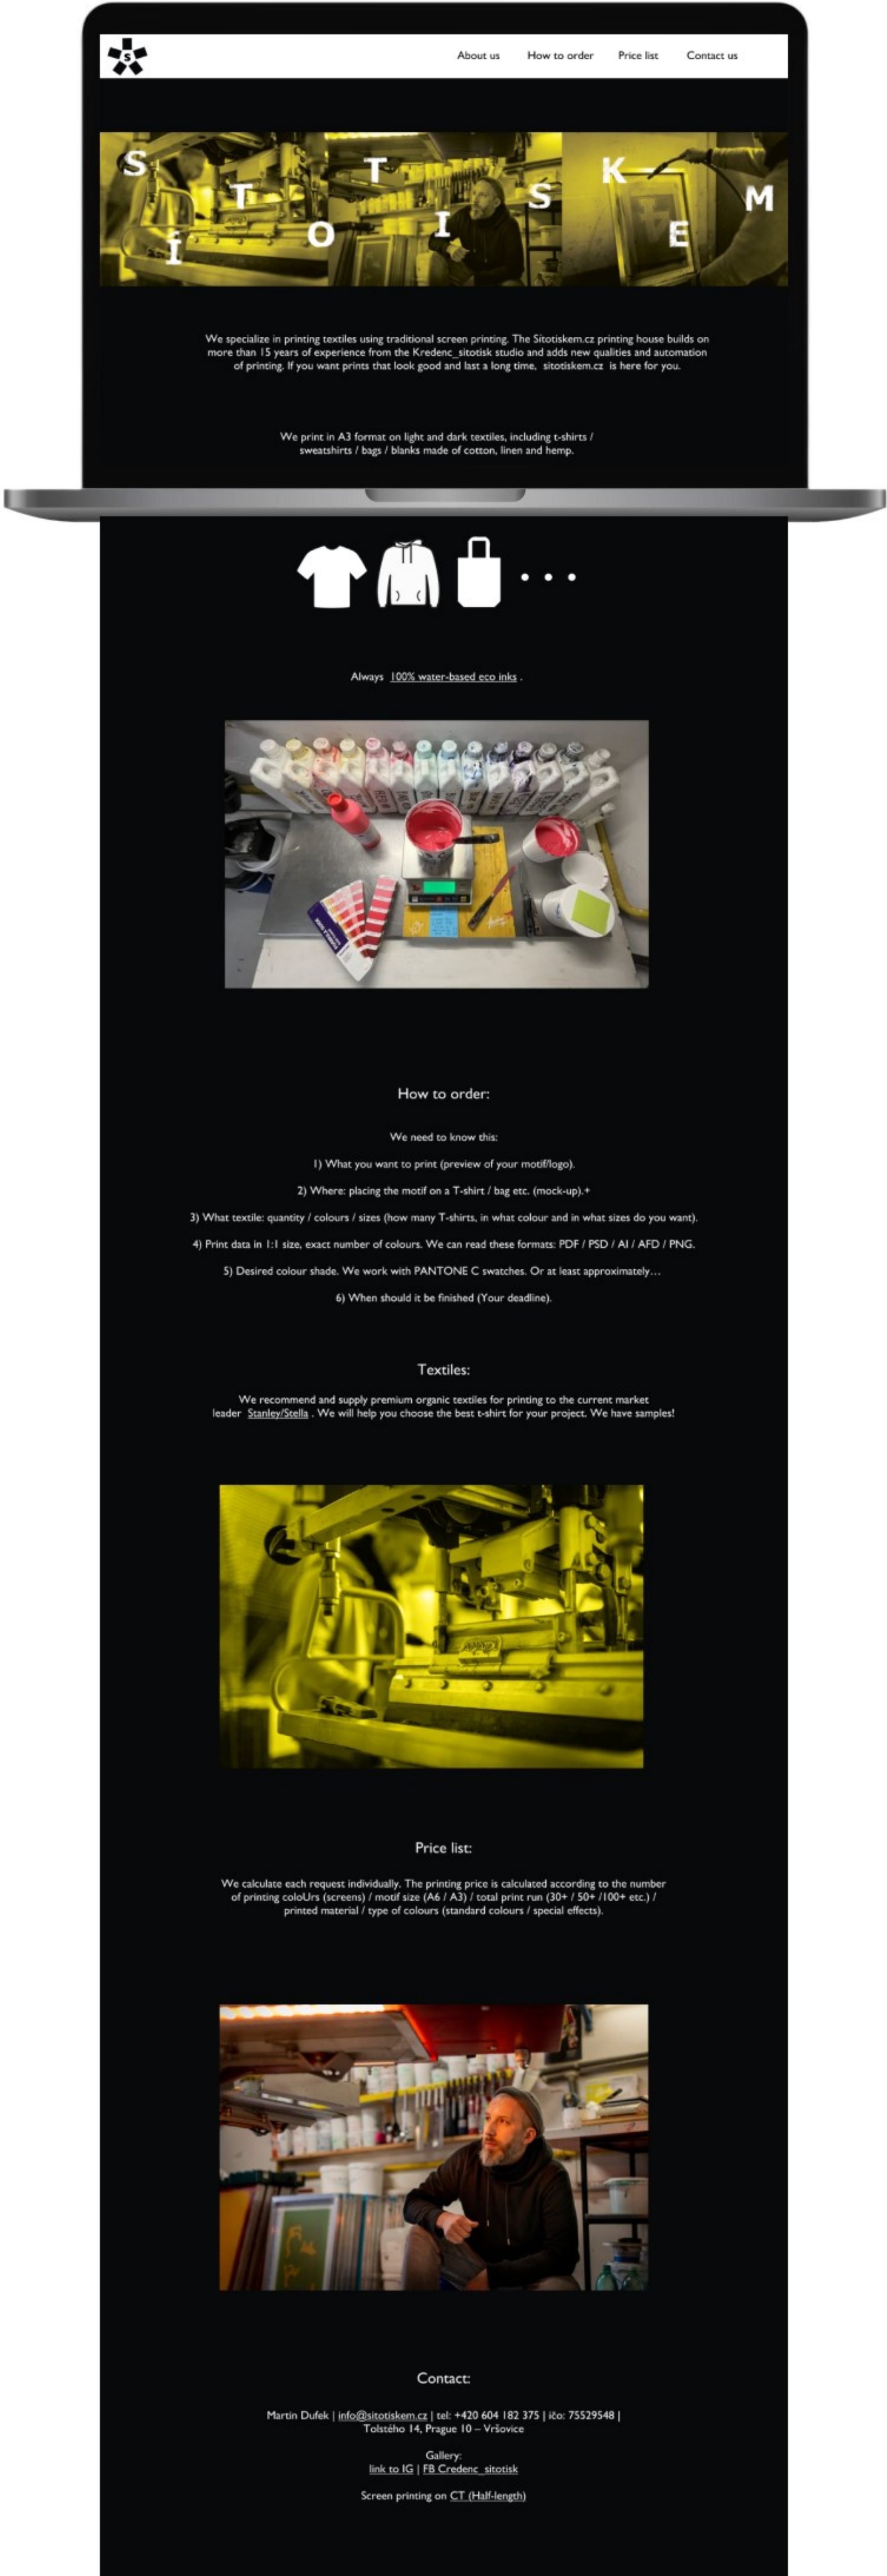

The colour palette consists of the CMYK colours which is the heart of the printing process. It is bold and eye-catching while symbolising creativity and the dynamic layering of ink that defines the craft.
