

What is GreyAway?

GreyAway is an enzymatic preparation-hair water for all types and colours of hair, which, without dyeing, gradually and decently restores the original hair colour from the inside throughout the entire structure and prevents the formation of dandruff.

Target Audience

- both men and women
- middle-aged individuals (35-55)
- people who seek natural options
- those who show care for the environment
- middle class and above
- health aware people

logo

Greyaway

a typography based logo that captures the gentle composition of the formula and the smooth flow of the hair

using a vertical type with interesting twists but still maintaining a modern, sleek look

the light strokes in the typeface indicate strands of hair

secondary logo

Nature's way to revive your color

natural hair toner that gradually and decently
restores the original hair color without dyeing

Gley Gaway

hair toner for all hair types with
coenzyme q10
that naturally restores the hair's
original color without dyeing

naturally radiant, naturally you.

naturally radiant, naturally you

Crafted with care, this product combines time-tested
botanicals to nourish your hair from root to tip, offering
a safe and gentle solution without harsh chemicals.

 aqua

 propylene glycol

 sulfur

 ammonite chlorine

 silver acetate

 coenzyme q10

 perfume

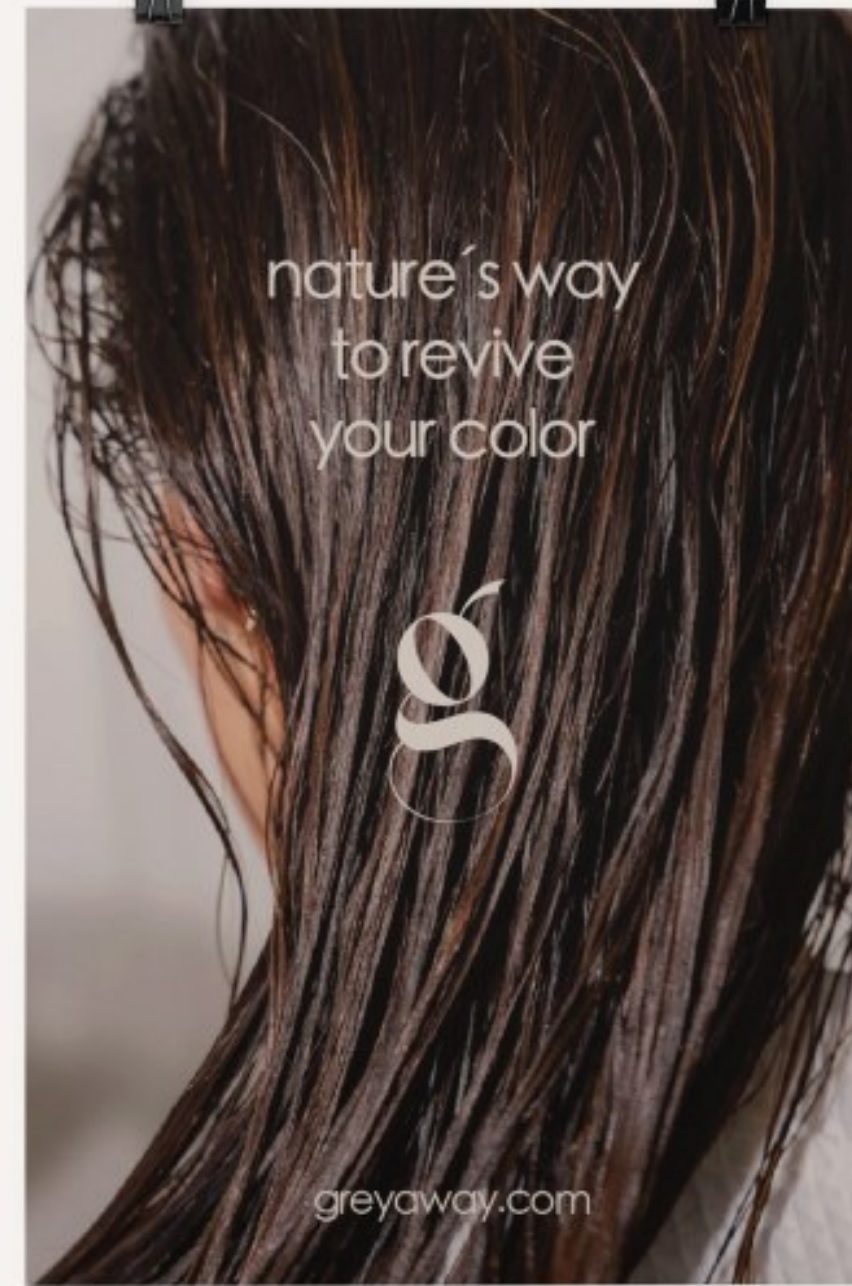

visual style

photographs of green moss
which emphasises the natural
aspect of the formula

the moss has slow changes in
colour with every season and
a very soft and delicate
surface, just like greyaway

photographs of beautiful hair,
without showing too much
face, highlighting that the
beauty comes from the hair

clean and light

A minimalist bathroom scene with a white pedestal sink. Above the sink is a white-framed mirror reflecting a small shelf with a bottle and a jar. To the left, a light-colored towel hangs on a ring. On the sink's surface, there is a small round soap dish with a bar of soap and a small dark bottle of Joy Away perfume. The background is a plain, light-colored wall.

naturally radiant,
naturally you.

packaging

the box is minimalistic but uses interesting typography and icons to make it stand out

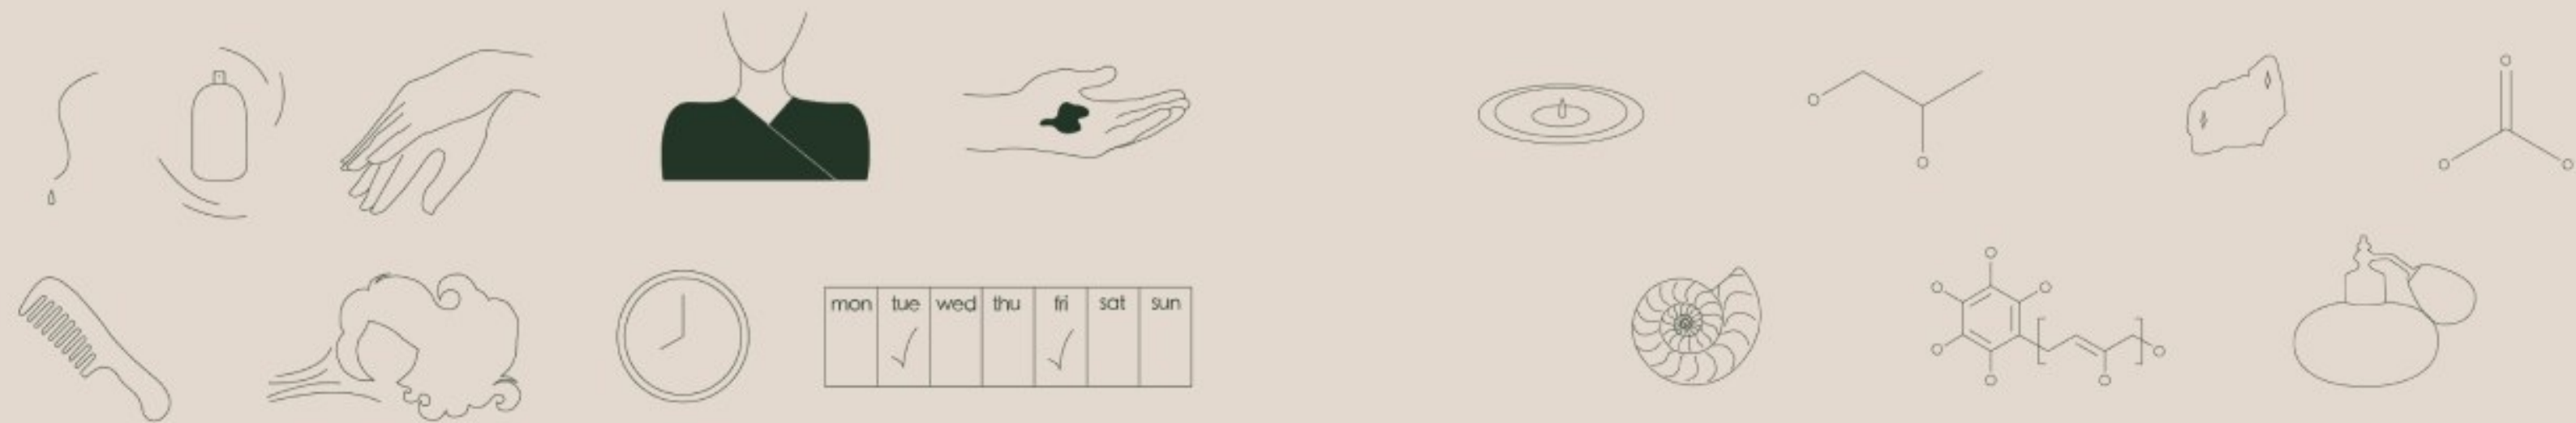

highlighting their innovative formula

qr code that leads the user to the greyaway website for further information

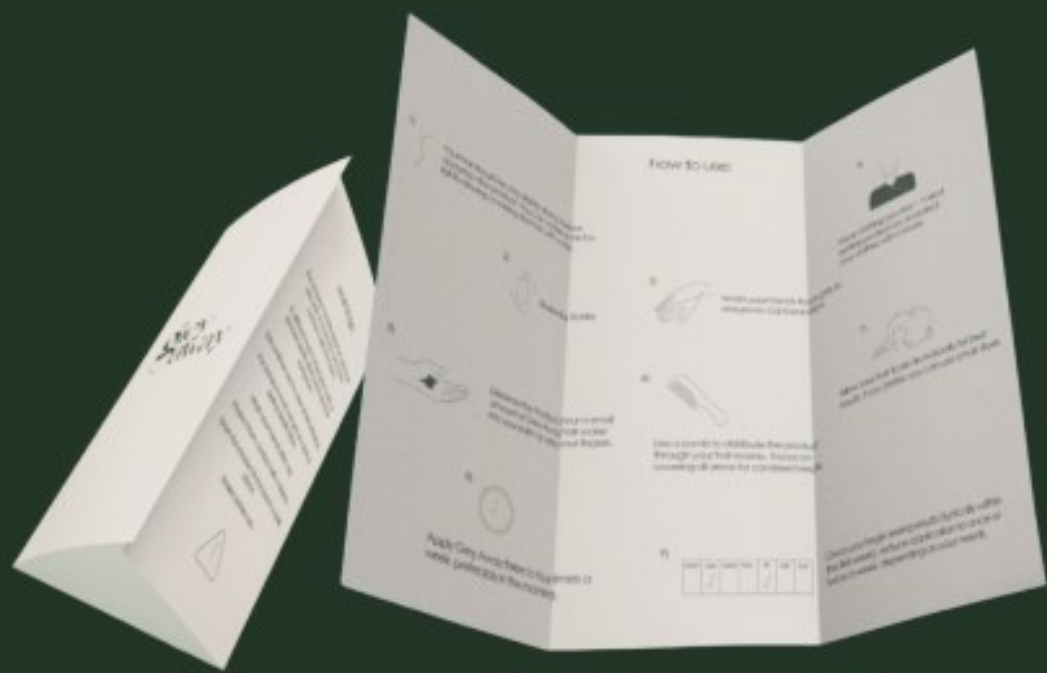

the bottle is brown and with the colour of the label it seems very natural and organic

icons

how to

brochure inside the box

1) Your hair should be only slightly damp before applying the product. You can achieve this by lightly dewing or misting the hair with water.

2) Shake the Bottle.

3) Wash your hands thoroughly to ensure no contamination.

4) Wear clothing you don't mind getting product on, or protect your clothes with a towel.

5) Dispense the Product: Pour a small amount of Grey Away hair water into your palm or onto your fingers.

6) Use a comb to distribute the product through your hair evenly. Focus on covering all areas for consistent results.

7) Allow your hair to air-dry naturally for best results. If you prefer, you can use a hair dryer.

8) Apply Grey Away three to four times a week, preferably in the morning.

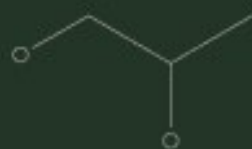

9) Once you begin seeing results (typically within the first week), reduce application to once or twice a week, depending on your needs.

social media

The social media emphasises the natural aspect of the formula and the eco friendly packaging as well. With posts such as “how to recycle” and the purpose of everything in the formula, it shows the viewer that we care about both their health and the environment.

thank you
